

## THE QUESTION:

# 'TO IB OR NOT IB?'

Information  
about the  
International  
Baccalaureate  
Program for the  
2022-2023  
School Year

Allen D. Nease High School  
[www-nhs.stjohns.k12.fl.us/ib/](http://www-nhs.stjohns.k12.fl.us/ib/)

The IB Class of 2018 enjoying their final IB social on the Nease football field. Pizza, music, laughter and socializing outside of the classroom are what makes our academy more than a program, but a family.

## THE ANSWERS:

### How does the International Baccalaureate Program (IB) differ from the Advanced Placement Program (AP)?

Both offer college-level courses yet differ extensively in approach. AP provides students with the opportunity to select individual courses while IB provides a comprehensive curriculum of college-level work. AP as a set of classes gives more flexibility in scheduling. IB pays attention to the whole student including service, leadership, art, music, film, the spoken language, foreign language, and extended writing requirements. AP courses represent a national standard of excellence; IB represents an international standard of excellence. Both programs rely on externally generated and assessed exams; however, the AP exams are based on in-depth knowledge of specific concepts within a given subject area, while the IB exams are based on a broad, general understanding of concepts and fundamental themes. AP exams place particular emphasis on multiple-choice questions. By comparison, IB courses place more emphasis on critical thinking and analysis. IB assessments involve more writing, investigation, oral work, projects, and labs. Also, final marks in IB reflect combined assessment by the classroom teacher and international examiners.

### Can IB students participate in extra-curricular activities?

Yes, IB students are actively involved and participate in all extra-curricular activities including sports, music, art and service. They provide leadership in many of these areas.

### What middle school courses provide preparation for the IB Program?

Algebra 1 Honors; High School courses at the MS level

### Do IB courses carry additional weighting?

Yes. Nease Pre-IB courses receive honors weighting (+ 0.5) and IB courses receive the same weighting as Advanced Placement (AP) and Dual Enrollment (DE) courses (+ 1.0).

**NEASE INTERNATIONAL BACCALAUREATE STUDENTS** actively balance a demanding academic program with service, athletic, leadership and social activities, and are recognized for their energy and enthusiasm. The Nease IB program was established in 1996 and is recognized as one of the most successful programs in the state, with 1,572 Nease IB graduates in 24 years.

What AP courses are included in the IB Program? AP World History (9th), AP US Government & AP Language (10th), and AP Literature & AP Science (11<sup>th</sup>). IB students also can take AP exams in some IB courses, including English, History and Math. Students may also take AP math courses as well as AP electives in addition to their IB courses.

Can my child earn college credit with IB exams? Absolutely. Go to [www.ibo.org](http://www.ibo.org) for IB recognition policies by North American colleges and universities. Most colleges and universities also have this information on their websites. In addition, IB students may receive credit for AP tests they have taken (see above).

Is IB a four-year program? Yes, in essence it is. The required Nease Pre-IB instruction is a two-year program, and the IB Diploma program, itself, is a two-year program.

### How does the IB diploma differ from the Florida High School Diploma?

The IB diploma is awarded by an external agency, is more global in scope, and signifies a more integrated curriculum than the traditional diploma. The IB Organization awards its diploma to students who perform successfully on the six external examinations and fulfill all other requirements of the program at an authorized IB world school, such as Nease High School. IB students complete all regular diploma requirements except HOPE, Performing Arts, World History and Economics and a virtual class.

How much work does a student have to do in the IB Program? The program is designed to provide a rigorous, broad-based liberal arts curriculum; therefore, the workload will be significantly more than standard curriculum, yet the majority of Nease IB students are actively involved in school, community, and social activities. During the junior and senior years, each IB student must participate in a self-designed creativity, action and service program. Also required in the IB program is the completion of a 4,000-word extended essay of original thought and research.

What type of student should consider the IB Program? Highly motivated, college bound students who are serious about acquiring the skills for success in higher education are the best candidates for this rigorous program. Students are well-rounded and are strong in many subjects, not just one particular subject.

Does my child have to be gifted to succeed in the IB Program? No, however he/she must be highly motivated and have a pronounced desire to be in the program.

If my child drops out of Nease Pre-IB or IB, can he/she stay at Nease if it is not his/her zoned school? Students must stay in the program for the full semester. Thereafter, the student must return to the home zoned school.

**APPLICATION INFO:** Go to the SJC website at:  
[academies.stjohns.k12.fl.us/registration/](http://academies.stjohns.k12.fl.us/registration/)

All applications must be completed online  
beginning January 6, 2022  
and no later than 5:00pm February 10, 2022.  
Teacher recommendations are also required.

## NEASE IB STUDENT PROFILE

### Awards, Honors & Achievements

- Nat'l Merit Semifinalists (2022-13; 2021-7; 2020-8)
- Nat'l Merit Commended Students (2021-15; 2020-15; 2019- 8;)
- Nat'l Achievement Scholar Semifinalists
- Nat'l Hispanic Recognized Students (2021-1; 2020-3; 2018-1)
- AP Scholars w/ Distinction (2021- 25; 2020-21; 2019-39)
- AP Scholars (2021- 27; 2020-101, 2019-88, 2018-97)
