

I.B. TOK 2 & CORE Summer Assignment CO 2025

Schoology – Course resources (EE & CAS) that may be valuable during your summer assignments will be relocated to the ***IB TOK Summer Group***. Our current classes on Schoology will be archived at the end of the year by the district.

CAS – continue to update all active experiences with timely reflections. All reflections should include “Elements of Reflection” found in the CAS folder on our Schoology Group. You should have at least 2 new written reflection plus evidence for each active experience and project over the summer. Remember, all reflections are time stamped by Managebac.

- New experiences - If you would like to start a new experience over the summer, please contact Ms. Milton by email and begin an experience proposal on Managebac. Remember to follow the instructions on the *CAS Experience Setup* document (you can find this on Schoology).
- CAS Projects - Continue to work on Stage 3 (Action) steps for your project. You may contact Mrs. Kennedy by email with any questions or ideas you may have. The Action Stage of your project should be completed before you return to school on August 12th.
- CAS Project Presentation – Please see the next page for instructions to create your CAS Project Presentation movie. This will be due on the first CAS Wednesday of your senior year (which can be very busy with college stuff!). It is a creative collaboration with your CAS team, so it is advised to complete it promptly after you complete your action steps.

EE – You will also need to focus on your Extended Essay this summer. It is important that you continue to work on your paper including further research, editing and revising current work, focusing your research question, revision of the introduction, main body, and drafting your conclusion. Resources for the EE can be found on the *IB TOK Summer Group*.

- Friday, August 23rd, 2024 – Completed EE drafts due! – 4,000 words
 - You will provide a hardcopy document to your mentor on or before 8/24. This will be the copy they can write on, so make sure to submit a complete printed draft.
 - You will upload your digital version to the Managebac Task for 23 August (Managebac classes section) **and** upload to your RRS page in the Diploma Manager section of Managebac.

Summer Assignment – CAS Project Presentation Video

Stage 4 Project Presentation Video Guidelines

- 10-12 minute team video explaining your engagement with the project from brainstorm through action phases.
- All team members must participate in the video
- Presentation should address:
 1. How and why you decided on the project and who would participate on your team. (brainstorm/research stage)
 2. The learning outcomes you chose and how you met those outcomes.
 3. Explain your process for setting and achieving project goals. (plan & action stage)
 4. Explain any struggles or setbacks and how you overcame them.
 5. How each team member grew as an IB Learner during the project
- Project Presentation movie must be submitted in MP4 format. Final work should be posted to the Managebac Assignment (September) and the evidence/reflections tab of your project proposal in Managebac.

Project Presentation Rubric:

5	4	3	2	1
Project Presentation video exceeds expectations. Video is creative and clever showing compelling evidence of engagement and growth as an IB Learner. All team members contribute to the video in a meaningful and authentic way.	Project Presentation video is very good and surpasses expectations. Video is interesting and thoroughly answers guiding questions. All team members contribute equally to the video.	Project Presentation Video contains all the required elements and shows the team process of the CAS project. All team members participate in the video.	Project Presentation is basic. Video may be missing some of the required elements. Video does not demonstrate proficiency of engagement by the team with their CAS project. Participation was obviously unequal between the members of the team.	Project Presentation does not meet several criteria. Video does not adequately show engagement of the team with the project process. Some team members do not participate in the video.
