

IB Application Process Reminders

District
Application
Information

NEASE IB Teacher
Recommendation
(to be sent to
teacher)

Zoned for Nease

- If IB is your only choice - list as only choice
- If you want to do an academy or NJROTC at Nease along with IB - list the other academy/academies first/second. (IB is considered separately so this increases your chances of getting the academy you want)
- Remember: if you select academies/programs at other schools and are chosen through the lottery, you are automatically accepted and assigned to that school!

Zoned for BHS, PMHS, or SAHS

- Since these schools offer comparable programs of choice (AICE and/or IB) you will have to be admitted to a Nease academy and/or NJROTC to attend Nease. You may then do IB in conjunction with your academy and/or NJROTC.
- REMINDER: SAHS also offers JROTC, so must apply for a Nease academy if zoned for SAHS.
- Select all academies at Nease (if Nease IB is your priority).
- Once you submit notify IB Coordinator at Nease that you would like to apply for IB and have your teachers send recommendations. Please note that there is not a separate application for IB, but this let's the coordinator know to look at your transcripts/scores and review recommendations.
- If you are selected for Nease via the lottery, you will then be notified if you were selected for IB as well. Reminder: you have to notify coordinator during application window to be considered!

Zoned for BTHS, CHS, PVHS, or TCHS

- If IB is your priority and top choice - list as only choice, or only along with other Nease academies (list after other academies).
- If you want to do an academy or NJROTC at Nease along with IB - list the other academy/academies first/second. (IB is considered separately so this increases your chances of getting the academy you want)
- Remember: if you select academies/programs at other schools and are chosen through the lottery, you are automatically accepted and assigned to that school!

FAQ:

Are IB students accepted via lottery?

- IB, as a program of choice, offers acceptance via merit, not the lottery.
- REMEMBER:
 - If you list other schools' programs and are selected for one of those, you are assigned to that school regardless of potential IB acceptance.
 - If you are zoned for another program of choice school, you must first be selected for an academy at Nease via lottery before receiving acceptance to IB. *(But need to notify coordinator during application window to be considered!)*

Is there a separate application for IB?

- No! But if zoned for another IB or AICE school, will need to email coordinator to be considered.

Do I email my scores and report card?

- No!
- Unless you are not currently attending a SJCS D school, then reach out to coordinator

Should I send supplemental information?

- No! All students applying are considered by reviewing the same criteria.

Do I need to do anything extra to apply?

- Yes! You will need to give your 4 core subject area teachers the recommendation form, or send link to digital form. They then need to submit directly to coordinator or via digital form by January 26.
