*Thank you to our Faculty, Students, and Parents who participated in Track or Treat! We received such wonderful accolades. One parent commented "**Your students last night absolutely blew me away! We stayed for two hours, and at each table, the students engaged with my children. I was so impressed with your students' interactions with the children, the level of care that went into preparing for the event, and the creativeness of the games.**"*

It was a wonderful community outreach and I was very proud of our Nease Panthers!

Our Nease students are simply THE BEST!! Enjoy this addition, of the Panther Press

Have a great week Panthers!

ACADEMY INFORMATION

Stellar Academy of Engineering Students See Engineering at the College Level

Juniors and Seniors in the Stellar Academy of Engineering had the chance to tour UNF's Engineering Building to learn more about the engineering opportunities offered at the college. The students saw classroom spaces, heard from professors and students, and saw UNF's fabrication lab. They learned about UNF's smaller class sizes and their industry connections for internships and employment after college. The students also got to see some of the projects the students worked on, including concrete canoes and the FSAE race car. In addition to learning about the engineering majors they offer, students also got information on UNF's Construction Management program.

Communications Academy Students Travel to the University of Florida

Twenty-three Communications Academy Wired students traveled to the University of Florida to take part in the Florida Scholastic Press Association District 2 Workshop Day. The students had the chance to attend sessions led by instructors from various high schools and by professionals in the field, to help them sharpen their skills in broadcast news. The students also got to tour UF's Communication School, thanks to UF Communications professor Harrison Hove, who also happens to be the director of UF's Summer Media Institute, an immersive journalism and communications summer camp program for high school students. Information about UF's Summer Media Institute will be shared in the Academy section of the Panther Press when it is released by the University. This was a great opportunity for our students to learn how to take their broadcast journalism skills to the next level!

Hospitality Academy & Communications Digital Design Students Take Part in Disney Workshop

How do design and hospitality blend together? With a little Disney magic, of course! Disney Imagineers took Digital Design And Hospitality Academy students on a journey through the Animal Kingdom theme park last week, revealing the secrets of creative storytelling to guests through design. Students learned how the park tells a story, and how elements of that story are told through innovative methods and designs. They learned that each part of the park is tailored to continue telling the park's story, never breaking from the intended theme. Students had the amazing opportunity to connect what they learned in their Academy classes to Disney World and concluded the day walking through the park creating their own stories!

FORTIFIED FLORIDA

Fortify Florida

FortifyFL is a website and app developed at the direction of the Florida Legislature.

Any student, educator, parent or member of the public can report school safety concerns directly to law enforcement and school administrators anonymously

and easily through the FortifyFL app or at <https://getfortifyfl.com/>.

The graphic features a dark blue background. At the top left are three small circular icons: a globe, a person, and a magnifying glass, with the text 'FLORIDA DEPARTMENT OF EDUCATION' below them. In the center is a red square icon with a white megaphone. Below this is the text 'FORTIFYFL' in large white letters, followed by 'SUSPICIOUS ACTIVITY REPORTING APP' in smaller white letters. Two smartphones are shown: one displaying the 'Tip Report - Step 2 of 4' screen with a text input field and a keyboard, and another displaying 'Tip Report - Step 4 of 4' with a 'Submit Tip' button. At the bottom, the text reads: 'FortifyFL is a suspicious activity reporting tool that allows you to instantly relay information to appropriate law enforcement agencies and school officials.' Below that is the hashtag '#FORTIFYFL' and the website 'GETFORTIFYFL.COM'.
